

PATH 12 PRODUCT OVERVIEW

The Path 12 is the next generation of Ascend sit-on-top kayaks. With its hybrid tunnel/catamaran hull design, the Path 12 boasts incredible stability while maintaining extreme maneuverability. The open-deck has been optimized for comfort and storage with custom EVA decking, adjustable ergo foot-braces, variable height seating, and a secure

Tunnel Hull Design: *NEW* catamaran/tunnel style hull, precisely engineered to perfectly balance maximum stability, solid tracking, and nimble maneuverability. Provides stability you can trust to perform in low seated, high seated, and standing positions.

Molded-in Aft Carry Handles: Large, molded-in carry handles provide a sturdy and streamlined carry solution while keep the aft of the boat clean and clear of clutter.

Ergonomic Carry Handle: Ergonomic injection molded handle with TPE over-molded onto GF Nylon provides durability and UV-resistance with a soft grip for a stylish and comfortable carry handle. 1 at the bow and 2 at mid-ship.

EVA Foam Deck Mat: Dual layered/colored marine-grade 6 mm EVA foam deck mat provides UV-resistant and extremely durable style and comfort for standing, sitting, or kneeling, as well as excellent sound deadening.

Molded-in Paddle Rests: Two sets of molded-in paddle rests provide safe options to set your paddle down, whether sitting or reaching to the bow of the kayak.

Rod Staging: Rod butt staging on port and starboard side of seat on gunnel. Provides secure staging of rods for quick access or while landing fish or rigging.

Accessory Rails: Four 12" gunnel flat-mounted accessory rails (2 mid-ship & 2 aft) maximizes flexibility for rigging locations of virtually any aftermarket accessory. *Accessories not included.*

bow hatch. The patented scupper plugs let you control and minimize water intrusion/retention while you're on the water. The Path 12 also includes a stern mounting plate that allows most stern drive motors to be added and the accessory rails allow you to make this kayak your own by accepting almost every aftermarket rail-mounted accessory.

Deluxe Removable Seating System: Interference fit, block mounted design with secondary retention straps to ensure your seat only moves when you want. Preset high & low positions along with ergonomic, adjustable, high-back seat provides ultimate comfort to keep you out longer. Removable for use onshore.

Stern Accessory Mounting Plate: Mounting plate with standard bolt pattern and ability to modify for custom accessory mounting.

Seat-Side Tackle Storage: Tackle storage on either side of seat for things like 3600 size tackle box.

Ergonomic Adjustable Foot Braces: Angled adjustable footbrace provides a comfortable place to rest your legs.

Covered Bow Hatch Storage w/ Bungee: Lid covered storage with additional bungee strapping on top, hinged and secured with quick ergo-friendly bungee latch provides convenient storage to keep your gear.

Scupper Drains: Eight 1.5" (3.81m) self-draining molded thru-hull scuppers with 8 plugs included.

Gaskets: Die-cut EPDM foam gaskets on flush-mounted rod holders, under-seat deck plate rigging access, and drain plug to virtually eliminate water intrusion.
